Belize at a glance

Statistical Institute of Belize · Belize Statistical Data Portal · exported 16 November 2026

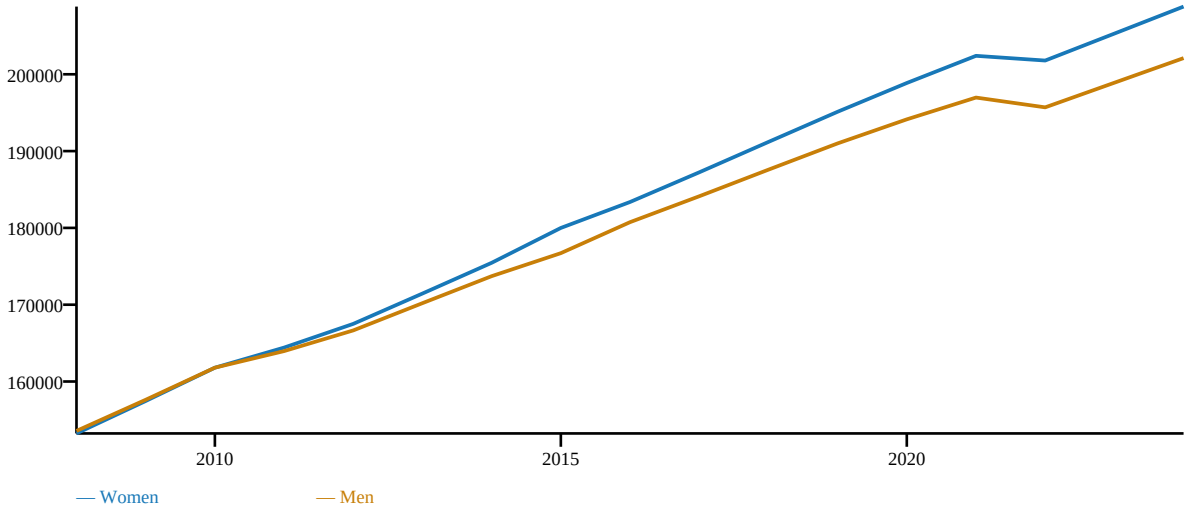

Five headline indicators from the National Statistical System: population, the economy, jobs, tourism and the cost of living. Composed in the portal's report builder for Statistics Week 2026.

Belize in five figures

This report brings together five of the most-used indicators on the BNSS Portal, each drawn live from the published data. Every chart and figure here can be opened on its own indicator page, filtered further, and downloaded as CSV, Excel or JSON. Figures are reconciled development data until production migration.

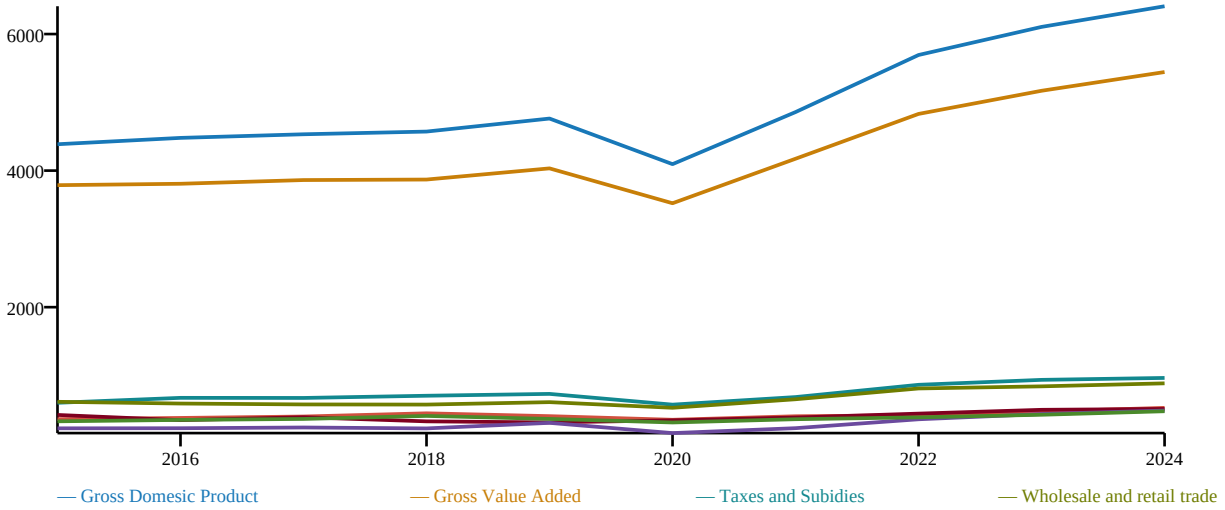

Population of Belize by sex, 2008–2024

Belize (national total) · Count

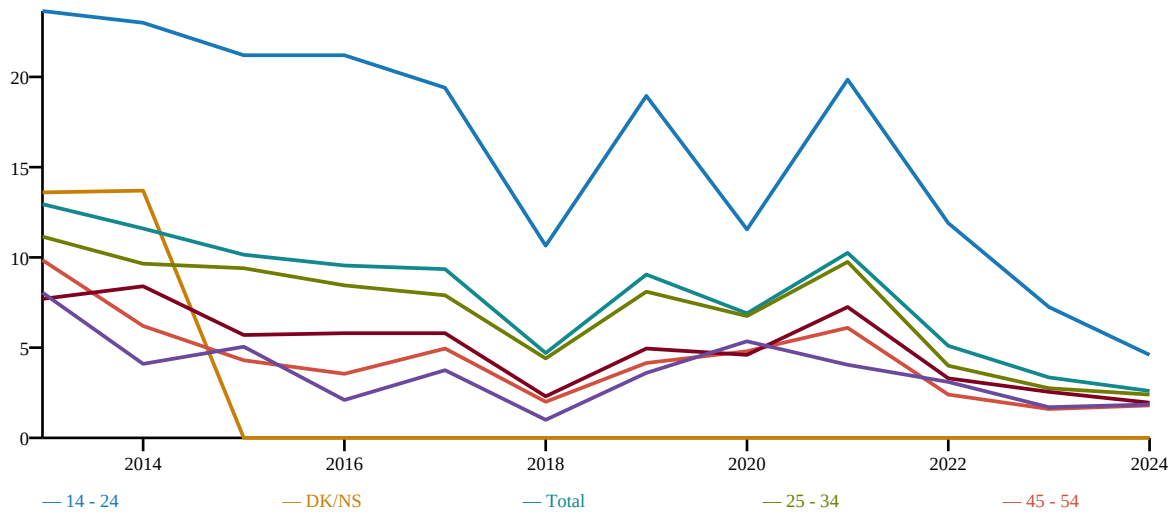

Gross Domestic Product by activity, current prices (BZ$ million), last ten years

Million Belize dollars

Unemployment rate by age group, both sexes (%)

Both sexes · Percent

Annual inflation by expenditure category (%), last five years

Percent
